New Concepts in Periodontal Management
Evidence Based Protocols for Improved Periodontal, Oral and Overall Health

FORMATION LIVRÉE EN ANGLAIS MAIS LES QUESTIONS POURRONT ÊTRE ADRESSÉES EN FRANÇAIS
Denis Massé HD, notre coordonnateur de programmes en parodontie agira à titre de maître de scéance

Educational Objectives
Maximally effective periodontal therapy is about much more than just cleaning teeth and scaling roots. Yes, bacteria initiates periodontal disease, but it is the host inflammatory response that adversely affects oral and overall health. The latest research confirms that host modulation therapies can have significant oral and overall health benefits. Come and learn how to determine which patients have a contributing host response. More importantly, learn the changes that you can make in your treatment protocols to help your patients heal better. You will leave with a clear understanding of how to incorporate a realistic protocol which can improve the health of your patients and your practice!

Content
• Fully understand the role inflammation plays in periodontal disease
• Learn what we can now say for sure about the oral-systemic link
• Learn the new message of dentistry which can better motivate your patients
• Understand the new maximum periodontal therapy paradigm (risk modification, host modulation, biofilm control)
• Develop a protocol for identifying patients with an exaggerated host response
• Learn a treatment approach that incorporates host modulation therapy

Who should attend?
Designed for the progressive dentist, this seminar provides the foundation to expand your skills within periodontistry. Staff members who are involved are also invited, but the dentist’s participation is mandatory.

Date
December 16, 2016
Location

International Dental Institute (IDI) at Quartier DIX30 (Montreal South Shore)
6000, Rome Blvd, Suite 210, Brossard (QC) J4Y 0B6 (indoor free parking)

For your accomodation, our direct neighbor: Alt Hotel at Quartier DIX30
6500, Rome Blvd, Brossard (QC) J4Y 0B6 • www.althotels.com/en/quartierdix30

Speaker

Dr Timothy Donley
DDS MSD

Timothy Donley is currently in the private practice of Periodontics and Implantology in Bowling Green, KY. Dr. Donley is a sought-after speaker whose courses are always highly rated. His forte lies in taking the latest research and packaging it in a way that makes sense. He is a lecturer with the ADA Seminar Series and has lectured world-wide. Dentistry Today recently listed him among its Leaders in Continuing Education. He lectures and publishes frequently on topics of interest to clinical dentists and hygienists.

CE Units

Dentist: 7 Continuing Education (CE) Units (Lecture: 7 hours)

Hygienist: 7 Continuing Education (CE) Units (Lecture: 7 hours)

For all dentists members of the ODQ, dental continuing education policy states that each hour of lecture grants 1 CE Unit, and that each hour of “hands-on” training grants 2 CE Units. For all dental hygienists members of the OHDQ, dental continuing education policy states that each hour of CE activity (lecture or hands-on) grants 1 CE Hour.

Schedule

From 8:30 a.m. to 4:30 p.m. – Seminar (Lunch: open)

Tuition

Dentist: $695 CAD

Staff Member: $295 CAD (dentist participation is mandatory)
